Events News

MGL Groups are all about reducing isolation and improving mental health and wellbeing through the therapies of knitting, crochet and community connection.

All new 'makers' start off knitting 'give' hats. These are the hats that are given away to those that really need them.

Patterns and yarn are provided. Even if you think you aren't a great knitter, you are welcome and assistance is available.

The group meets Tuesdays inside the Te Awamutu Library during Term Time starting Tuesday 15 September.

There is no need to book or to come to every session.

Your facilitator in Te Awamutu is Sue Beadle.

Cass Hendry is a registered clinical therapist working towards positive mental health for all New Zealanders. Her Creative Waipā community workshops are designed to help children cope with the pressures of today as well as the stresses and difficulties experienced while coping with COVID-19. *These sessions were previously postponed.*

Art therapy is a therapeutic process that enables people to bring about change at their own pace.
